

# Just how old are you ?

How old are you?

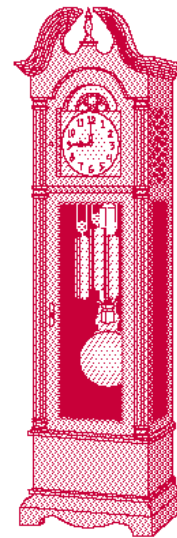

15000 days?    80000 hours?    150 million seconds?

Use each of these different units in turn, write down a guess for your age then work it out. You may well need a calculator to help you.

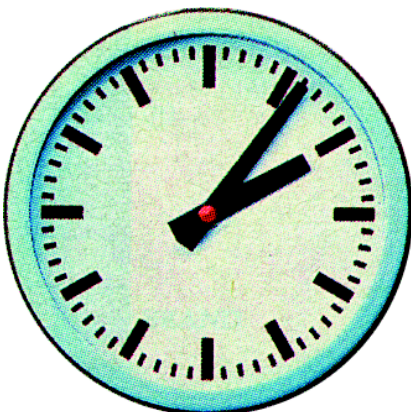

**Years**  
**Months**  
**Days**  
**Hours**  
**Minutes**  
**Seconds**

Try finding out other peoples ages in these different units - your Dad, Grandma, Dog, Goldfish, etc

How old is your oldest living relation?  
How old is your youngest living relation?  
Which year were they born in?

Remember : 1 year = 12 months  
1 year = 365 days  
1 day = 24 hours  
1 hour = 60 minutes  
1 minute = 60 seconds
