

These notes are intended to give further information about how to answer the *CensusAtSchool* Phase 11 questions, first published October 2011.

Please note that if you want to check the online questions, use the teachers username "TESTING" then this row of data will be deleted from the database.

It is not necessary for learners to complete a hard copy of the questionnaire before entering the data online. However, learners will need to measure their height, footlength and arm span beforehand.

Interpreting Questions

Question 1 www.osi.ie has a "Looking for an address?" section on their website to help you find the XY coordinates of your school

Question 6 All measurements are to be measured to the nearest tenth of a centimetre.

Question 8 & 9 The pupils will need to be familiar with the 24-hour clock.
